Bookkeeping in the Old Days Prior to computers and software, the bookkeeping for small businesses usually began by writing entries into journals. Journals were defined as the books of original entry. In order to reduce the amount of writing in a general journal, special journals were used.

Bookkeeping | Explanation | AccountingCoach
Accounting entries that debit and credit related accounts typically include the same date and identifying code in both accounts, so that in case of error, each debit and credit can be traced back to a journal and transaction source document, thus preserving an audit trail. The acronym "Journal of Accounts".

Double-entry bookkeeping system - Wikipedia
At various times, accountants copy (post) journal entries to a ledger—another record book. While the journal lists entries chronologically, the "ledger" organizes entries by account, as Exhibit 9, below, shows. Near the end of each accounting period, accountants create a trial balance and an end-of-period check for accuracy.
